Cedar Lane Road Project

Beginning Monday August 4, 2014, Duit/TTK Construction will begin to install storm water pipeline at the intersection of 12th Avenue SE and Cedar Lane Road. The storm water pipeline crosses both 12th Avenue SE and Cedar Lane Road. The contractor will close one lane of traffic at a time for installation of the storm water pipeline. Neither 12th Avenue SE nor Cedar Lane Road will be closed to through traffic. Flaggers will direct traffic around the construction. This phase of construction is expected to be completed by August 15, 2014. Drivers are encouraged to use alternate routes to avoid possible delays.

The Cedar Lane Road Widening Project is an \$8.1 million street improvement project. When the project is complete, the roadway will be widened to four lanes with 5-foot bike lanes adjacent to the curb, the intersection of 12th Avenue SE and Cedar Lane Road will be widened and signalized, dual left turn lanes from 12th Avenue SE onto eastbound Cedar Lane Road, the railroad at grade crossing will become a quiet zone crossing, and 5-foot sidewalk will extend the length of the project on both sides of Cedar Lane Road. The Oklahoma Department of Transportation will be administering the construction of the project on behalf of the City of Norman. The prime contractor is Duit Construction, from Edmond Oklahoma. The project has an estimated completion date of June 2015.

Additional questions may be directed to Mr. Josh Malwick, City of Norman Capital Projects Engineer, at (405)366-5454.
